

The Pacaya Samiria National Reserve & the Peruvian Amazon Experience

If you find yourself in the Pacaya Samiria National Reserve, you're doing something right. The blooming soul of the northern Amazon Rainforest is among the most protected biodiversity swaths remaining today in the region, and no other destinations in Peru offer the kind of unbarred access to some of Earth's most elusive creatures and plants.

Just imagine going on a morning boat ride skirting the edges of the river in search of cackling macaws and tree sloths slowly waking up to begin their days, then returning to your vessel with a chilled local fruit juice waiting for you. Or, how about swimming in a mirror-like lagoon that is so calm that it seems preface to a storm, yet instead, you're greeted by rare pink river dolphins jumping up to say "hello," then your guide offers you a warm towel after your dip? Finally, what better way is there to close out your evening fishing for red-bellied piranhas during a fiery sunset than with a 3-course, individually-crafted gourmet meal made of ingredients sourced from the natural backyard that surrounds you?

These and much more are the kinds of details that have been anticipated by the exceptional crew of the Delfins, whose operations have been painstakingly considered to cater to even the most discerning and seasoned explorers who seek styled, boutique experiences along with authenticity and charm.

Seasons:

- ▶ **Low water season:** June to October. Ideal for travelers that prefer to walk through the rainforest to discover its flora and fauna. Allows for more trail walks.
- ▶ **High water season:** November to May. Ideal for travelers that prefer to duck into otherwise isolated corners of the reserve onboard speed boats. Allows for more extensive exploration and access via water.

Our vessels thrive in splendid harmony with nature and its spectacular surroundings. By any standards, our guests appreciate the "noncruise" atmosphere and the sense that you are on board to explore one of the world's most intriguing and authentic environments.

The true detail that set Delfin apart from others is its dedication to collaborating the rich rainforest ecosystem with its own identity, which permeate through every aspect of the vessels and operations. Collected irapay leaves (typically seen on residential huts) form the boats' waterproof roofs, lamps made from spare paiche fish scales highlight common areas, quality woods from the forest form the very boat and Suites, and custom-made repellants and lotions made of natural jungle ingredients serve every guest.

When lazy afternoons roll around or if you want to gaze at the millions of southern stars set against the blackest of skies, venture to the top deck where soothing lounge space and a bar will lull you into pure relaxation. The dress code is casual for all excursions and meals.

Sustainable Travel

Delfin has made it a highest priority to give back to the Amazon's communities as much as the local people have enriched their travelers' experiences.

Handmade, custom-designed artisanal wares made by the village women vibrantly enhance every Suite and dining room on board, and often the community men with lightning-fast reflexes accompany trail walks to make sure you don't miss fast-moving poison dart frogs or slithering anacondas! Visits to these communities bring our travelers together with the local people, allowing for cultural exchange at both ends.

The rainforest's various cultures and lifestyles have long resolved how to live together in harmony, and Delfin promises to uphold this natural, delicate synergy.

Crew & Guides

We have assembled a talented and experienced team of naturalist and interpretive Amazon River guides who are the most important and essential ingredient in our cruises. Their expert knowledge of plants and birdlife, and the history of this part of the Amazon, will be the difference between a visit to Peru and an unforgettable life experience in the jungle. Put together, they have decades of invaluable experience.

Most of our guides were born and raised in the rainforest they now call their office, in small communities that are spread throughout the Peruvian Amazon. They spent their childhoods walking the forest paths, climbing trees to pick fruit, fishing the small streams, and chasing iguanas along the shoreline. Now, they are proud to share their knowledge and passion with our travelers from around the world.

Many of them have also participated in training sessions and projects with Peruvian and North American professors, researchers, scientists, and other professionals of similar leagues.

All our guides are bilingual in Spanish and English, and some have additional language aptitudes. You will also discover during a cruise that they have delightful musical talents to boast!
